Regulation (EC) No 1935/2004 states that food contact materials should not endanger human health, bring about an unacceptable change in the composition of the food or bring about deterioration in the organoleptic characteristics of the food.

There is no harmonized directive describing the requirements for paper and boards. However, the German recommendation on paper and board for food contact; BfR XXXVI, set limits for migration of substances from paper and board. Migration tests have been conducted according to BfR XXXVI.

The products do not apply any danger to health or environment according to Framework Regulation (EC) No 1935/2004. The products are manufactured according to Regulation (EC) No 2023/2006 on good manufacturing practice. The products comply with BfR Recommendation XXXVI for Paper and Board.
